Re: Photography

Proposed: To further promote wrestling in the State of Washington by covering as many events as possible, and to provide a permanent photographic record of our state's wrestlers, I propose the following:

I will continue to cover as many of the state's major tournaments as my funds and schedule will allow.

I will continue to provide FREE OF CHARGE low-density images of all photos on my website – www.jedicheetah.com. Parents, wrestlers, coaches, and fans will still be able to view pictures the same as they have in the past, at no cost.

I will have the opportunity to sell high-density photos, posters, and other photo-related products for those interested in purchasing something of a higher quality than what they can view for free online.

I will donate 10% of all GROSS REVENUE derived from sales to the WSWA. Though I am doing this only to attempt to recoup my expenses, should I actually make a profit with this project, I will donate 25% of all profits to the WSWA.

I will give a proper accounting of all revenue to the WSWA Treasurer at the end of the fiscal year.

In return,

WSWA will grant me the title of 'Official Photographer for the WSWA'.

WSWA will grant access for me to cover tournaments as it has in the past.

WSWA will grant me exclusive rights to sell photographic items as previously mentioned for any tournaments that I cover.

WSWA will grant this license perpetually as long as both parties are in agreement to continue, to be reviewed on an annual basis.

Summary: As a member in good standing of USA Wrestling, having passed the necessary background check and with my recent history of consistently covering the sport photographically resulting in being named the 2007 'WRESTLING USA' magazine Photographer-of-the-Year, I respectfully request that the board and/or membership vote in favor of this proposal.
